

## Specify a unique search results page

Search results are displayed by default on the SearchCenter/Pages/results.aspx page of the portal site. Site administrators can choose either to create a new page on which to display search results or to display the results within an existing portal site page.

1. On the home page, on the **Site Actions** menu, point to **Site Settings**, and then click **Modify All Site Settings**.
2. On the Site Settings page, under **Site Collection Administration**, click **Search settings**.
3. On the Search Settings page, in the **Search Results URL** section, click **Present results in the following page**, and then type the full URL
